### Actions to stop doing:

- Procrastination
  - As a team, we should be more timely with our development

### Actions to start doing:

- Documentation
  - Start using google drive for documentation organization
- Standardize Testing Workflow
  - Have clear testing goals when reviewing new features

### Actions to keep doing:

- Communication
  - Clear and consistent communication
  - Updating the team about the current status of where they are at on their task
  - Continue collaborating and communicating with each other during meetings and online.
- Independent Work
  - The team has been working well independently outside of work sessions and meetings, which has allowed our product to continue growing. We are keeping ourselves accountable.
- Group Work
  - The team is able to stay on task and be productive while working together
