

Definition of Done: Hike Review

Story Definition (Did you build the right thing?):

- All tasks for the user story are done
- Functionality confirmed through internal app testing
- The Product Owner reviews the updates and verifies if goal of the story is complete

Sprint Task Definition (Did you build the thing right?):

- Code is tested by developer
- Test coverage measured and ensure 80% of code is tested
- Code checked into repository (Github)
- Code reviewed for "Clean Code" requirements
- Code reviewed by 2 team members & functionality demo performed
- Package updates documented
