

Sprint 1 Report

Product Name: Hike Review

Team name: Hike Review

Release Name: Version 1

Date: 01/28/2025

Actions to stop doing:

- Procrastination
 - As a team, we should be more timely with our development.

Actions to start doing:

- Weekend work sessions
 - Coordinated work sessions would improve our product development across the entirety of the app.
- Come in person every meeting
 - In person work is more productive and collaborative.
- Be on time
 - Being on time to all work meetings is considerate for other team member's time, and also ensures that we stay on schedule for development.

Actions to keep doing:

- Communication
 - Continue collaborating and communicating with each other during meetings and online.
- Independent Work
 - The team has been working well independently outside of work sessions and meetings, which has allowed our product to continue growing. We are keeping ourselves accountable.
- Group Work
 - The team is able to stay on task and be productive while working together

Work completed/not completed:

User Stories Completed	User Stories Not Completed
<ul style="list-style-type: none">- Story 1.1: As a hiker, I want to see a map of my area so that I know where I'm at.	<ul style="list-style-type: none">- Story 1.2: As a hiker, I want to know of nearby hikes so that I can find one that I would like to explore.<ul style="list-style-type: none">- Task: get the list of hikes into the React app

Work completion rate:

Total number of user stories completed: 1

Total number of estimated ideal work hours completed: $3 * 5 * 10 = 150$ (3 hours per person per weekday)

Total number of days: 14

User stories per day: 0.0714 (1 user story/14 days)

Ideal work hours per day: 10.714 (150 hrs/14 days) (2.14 hrs per person)

Burnup Chart: Sprint 1
