Sprint 4 Report

Product Name: Hike Review
Team name: Hike Review
Release Name: Version 1
Date: 03/11/2025

Actions to stop doing:

Actions to start doing:
- Standardize Testing Workflow
    - Have clear testing goals when reviewing new features

Actions to keep doing:
- Communication
    - Clear and consistent communication
    - Updating the team about the current status of where they are at on their task
    - Continue collaborating and communicating with each other during meetings and online.
- Independent Work
    - The team has been working well independently outside of work sessions and meetings, which has allowed our product to continue growing. We are keeping ourselves accountable.
    - Completing tasks in a timely manner.
- Group Work
    - The team is able to stay on task and be productive while working together
- Documentation
    - Start using Google Drive for documentation organization

Work completed/not completed:

User Stories Completed	User Stories Not Completed
- Story 3.1: As a hiker, I want to have an account to share my opinion on hikes. - Story 4.2: As a hiker, I want to coordinate hikes with other users so I can make friends. - Story 4.3: As a hiker, I want to be able to favorite hikes in case I want to return to the specific hike.	- Story 4.1: As a hiker, I want to get directions to a hike so I can find my way to the start of the path. (Pushed to backlog)

Work completion rate:
Total number of user stories completed: 3
Total number of estimated ideal work hours completed: 3 * 5 * 10 = 150 (3 hours per person per weekday)
Total number of days: 14
User stories per day: 0.214 (3 user story/14 days)
Ideal work hours per day: 10.714 (150 hrs/14 days) (2.14 hrs per person)
